

MATRICES BETON

- 1 Making of the master mould (model)
Anfertigung der Mutterform (Modell)
Fabrication du moule original (modèle)
- 2 Preparation of the mould for the liner cast
Vorbereitung der Form zum Matrizenuss
Préparation du moule au coulage de la matrice
- 3 Ready made formliner
Fertige Matrice
Matrice finie
- 4 Formliner prepared for concreting
Matrize vorbereitet zum Betonieren
Matrice préparée au coulage du béton
- 5 Formliner and pre-cast concrete element
Matrize und Betonfertigteil
Matrice et élément béton préfabriqué
- 6 Complete pre-cast concrete element
Komplettes Betonfertigteil
Élément béton complet

Abstrait

Des designs originaux jouent avec le béton permettant de représenter des formes géométriques, en ligne droite, en oblique, répétitives ou totalement aléatoires.

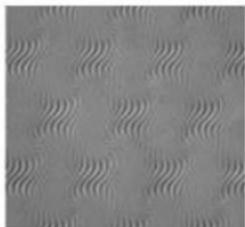

2/111 Oriental

2/151 Gironde

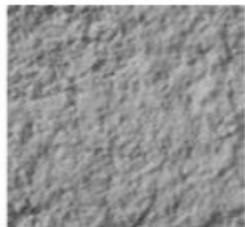

2/188 Champagne

2/602 Saône

Pierre & Maçonnerie

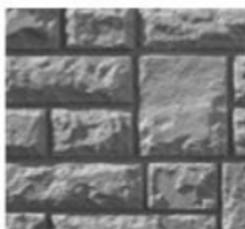

Le béton se transforme en roche, en pierre naturelle douce, rugueuse ou éclatée. Différents montages créent des effets de maçonnerie.

2/147 Allgäu

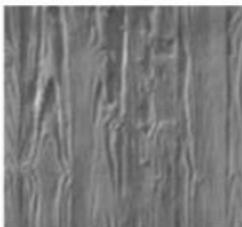

2/173 Santa Cruz 1-4

Bois

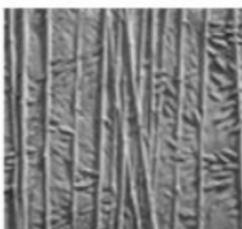

Veinage bois, planches assemblées, aspect de bambous et de roseaux ; les structures bois donnent un aspect naturel ne demandant pas beaucoup d'entretien.

2/69 Marne

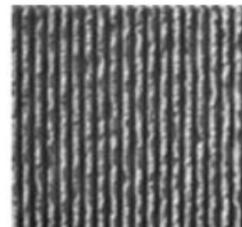

2/102 Parana

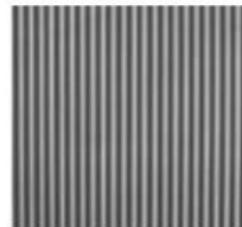

2/103 Lena

Nervures & Vagues

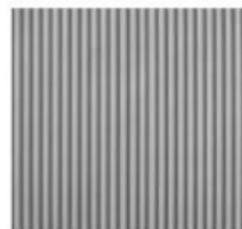

Cannelures, cannelures cassées ou vagues confèrent suivant votre choix légèreté ou massivité.

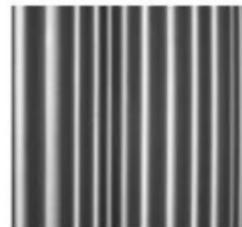

1/41B Ibiza

2/29 Fulda

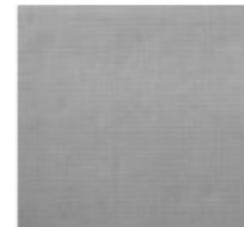

2/77 Tigris

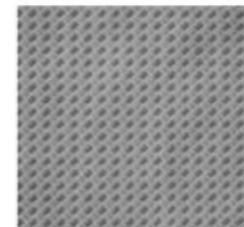

2/175 Friesland

Fonctionnel

Grâce à leurs surfaces spéciales, réalisées sur base de stries fines, de petits plots ou de textures sablées, les matrices fonctionnelles garantissent une bonne résistance au glissement.
